Potassium Salts of Fatty Acids.....	2.00%
Other Ingredients.....	98.00%
Total.....	100.00%

Instructions

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

KEEP OUT OF REACH OF CHILDREN AND PETS

Directions for Use:

What It Is: Safer® Brand Moss & Algae Killer is made from naturally occurring biodegradable fatty acids. This water-based product is non-corrosive to metals, contains no zinc or iron, and is non-staining on most surfaces.

What It Eliminates: Safer® Brand Moss & Algae Killer effectively eliminates mosses, algae, lichens, liverworts and grime. Safer® Brand Moss & Algae Killer also effectively eliminates mosses in lawns.

Where to Use It: Safer® Brand Moss & Algae Killer is ideal to use on roofs, decks, siding, walkway, home greenhouses, growing containers and benches, structural surfaces, hardened bark of trees, lawns and turf. This container will treat up to 50 square feet depending on type of surface treated and degree of infestation.

How to Use It: Shake Well.

For Structural Application: For best results, moisten area to be treated with fresh water before applying product. Spray area at a rate of approximately 1 gallon per 100 sq. ft. of overgrown surface. Avoid spraying when precipitation is expected. Spray affected area to wet thoroughly. Treated mosses, algae, lichens and liverworts discolor quickly and will dry and slough off naturally making physical removal unnecessary. Discoloration of treated mosses, algae, lichens and liverworts takes longer under cool conditions.

For Growing Containers and Hardened Bark or Trees: Spray affected area to wet thoroughly. Use on ornamental trees only. **Do not apply** to fruit trees, foliage or green bark of conifers or broad leaf plants.

For Mosses in Lawns and Turf:

For best results, moisten area to be treated with fresh water before applying product. Avoid spraying when precipitation is expected. Spray affected area thoroughly at a rate of approximately 1 gallon per 50 sq. ft. After 30 minutes, rinse sprayed areas lightly with clean water, then withhold water for two days. Do not treat turf when temperature exceeds 85° F.

Persistent moss growth on lawns is symptomatic of too much shade, acid soil and poor drainage. If several sprayings do not reduce moss problem, it may be necessary to reduce shade, and aerate and lime the soil.

Note: Treated areas may be temporarily slippery. Product may leave white residue on cement, brick or dark-colored shingles. This residue may be removed with vinegar.

PRECAUTIONARY STATEMENTS:

Hazard to Humans and Domestic Animals:

CAUTION: Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eye, or clothing. Wash thoroughly with soap and water after handling.

FIRST AID:

If in eyes:

- Flush eyes with plenty of water.
- Call a physician if irritation persists.

If on Skin: Wash with plenty of soap and water. Get medical attention if irritation persists.

If Swallowed: Call a physician or Poison Control Center. Drink 1-2 glasses of water and induce vomiting by touching back of throat with finger. If person is unconscious, do not give anything by mouth and do not induce vomiting.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-858-7378 for emergency medical treatment advice.

ENVIRONMENTAL HAZARDS:

This product may be hazardous to aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment, washwaters or rinsate.

STORAGE AND DISPOSAL:

Storage: Store at room temperature, in original container only, out of reach of children and animals. Keep from freezing.

Disposal: Securely wrap original container in several layers of newspaper and discard in trash.

Woodstream Corp and its subsidiaries will not accept liability for damage or injury resulting from use not in accordance with label instructions.
