

Concern® Weed Prevention Plus

100% Natural Corn Gluten – Pre-emergent Herbicide

Active Ingredient:

Corn Gluten Meal.....100%

Net Wt. 40 lbs (18.14 kg)

Directions For Use:

How to use: Cut bag open and dispense across the area to be treated. Treats up to 2,000 sq. ft.

GARDEN: Prepare garden bed by turning under or pulling established weeds, then apply by hand around bedding plants, flowers or shrubs. Rake lightly into soil. Weed Prevention Plus® works best if applied, watered in, and allowed to dry for 2-3 days. If excessive rain occurs, reapplication may be necessary. It keeps working 4-6 weeks. Reapply as needed. Do not apply on newly seeded areas. However, it can be used with confidence around transplants.

LAWN: Spread Weed Prevention Plus® evenly over lawn grass by hand or in a spreader. Avoid any bare spots where you are reseeding. Sprinkle in cracks on sidewalks and driveways. Weed Prevention Plus® works best if applied watered in and allowed to dry for a period of 2-3 days. If excessive rain occurs, reapplication may be necessary.

APPLICATION RATE: Apply 5 lbs. per 250 sq. ft. (25' x 10') to turf or garden soil. If you choose you can use twice the recommended rate for even better control with no fear of burning your plants.

WHEN TO APPLY: Your first lawn application should be in the early spring, 3-5 weeks before weeds begin to sprout. This is about the time the crocus and daffodils are blooming in your area. Reapply in late summer when temperatures turn cooler to control late season weeds. Apply to gardens at any time.

Precautionary Statements:

CAUTION: Possible allergic reaction to inhalation of dust in affected individuals.

Woodstream Corporation certifies that this product qualifies for exemption from registration under the Federal Insecticide, Fungicide and Rodenticide Act.
