

Safer®
BRAND

TruBone+

VEGETATIVE / BLOOM

LIQUID FERTILIZER

6-20-0

A high phosphorus nutrient for
flowers, fruits, vegetables, herbs,
berries and potted plants.

net contents 32 fl oz
(1 qt) (946ml) concentrate

TruBone+

Safer® Brand TruBone+ liquid plant food provides an easily absorbed form of phosphorous and nitrogen derived from fermented corn extracts and steamed bone meal. This combination provides rapid nutrient uptake and quick results to grow larger, stronger and more bountiful plants. With a high amino acid content from fermented corn extracts, TruBone+ delivers a powerful blast of immediately available nutrients that can be used throughout the vegetative and flowering stages of development.

Try the entire Safer® Brand line of nutrients to easily accommodate your plants' ever-changing nutrition requirements.

For indoor and outdoor potted plants, all varieties of flowers, vegetables, herbs, trees, berries, shrubs, annuals and perennials.

- Use as part of a complete fertilizer program
- Use immediately after dilution
- Apply only as directed
- Shake well before use
- Keep in a dry, dark place at room temperature

Application Instructions:

Soil Application:

- 1 Use 6-15 ml per gallon of water (1.2-3 tsp/gal)
- 2 Feed as usual – safe to use with every watering

Hydroponics:

- 1 Use 6-15 ml per gallon of water (1.2-3 tsp/gal)
- 2 Replace every 3 days in early flower, and every other day in mid-late flower.
- 3 Use 6-8 ml per gallon of water (1.2-1.6 tsp/gal) if needed during vegetation.

For Best Results:

- Top dress media with worm castings.
- Use conductivity or PPM meter to monitor water quality and control nutrient strength.
- Drain, discard and replace nutrient every week to prevent nutrient imbalance.
- Maintain nutrient pH between 5.5-6.5. Adjustment may be necessary since water quality and pH vary both regionally and seasonally.
- Refer to the Feeding Schedule for general mixing recommendations.
- Reduce nutrient strength if plants show signs of stress.
