

Safer® Brand Clothes Moth Alert

Traps Clothes Moths

Directions for Use:

Remove the enclosed lure from its protective packet. With the pointed end of the trap facing down, drop the lure in the round opening, ensuring it sticks on the glue square. Hang traps at eye level in closets and rooms to be protected. Pay special attention to items containing wool, cashmere and other animal hair. Use one or two traps for an average size room. Replace traps after 12 weeks.
