

Fast Acting Weed and Grass Killer

32 oz. Ready-to-Use

Directions for Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SPRAY INSTRUCTIONS:

Read this entire label before using product.

IMPORTANT:

THIS PRODUCT IS A GENERAL CONTACT HERBICIDE AND WILL DAMAGE OR KILL ALL VEGETATION WHICH IT CONTACTS. AVOID OVERSPRAY OR SPRAY DRIFT ONTO DESIRABLE LAWN GRASS, FLOWERS, VEGETABLES, GARDEN PLANTS, SHRUBS, OR TREES. KEEP PEOPLE AND PETS OFF TREATED AREAS UNTIL DRY TO AVOID PRODUCT TRANSFER TO DESIRABLE VEGETATION.

To Use:

Shake well, and use as provided for spot treatment of weeds. Ensure thorough wetting and complete coverage of all unwanted vegetation. Do not apply during windy conditions that will carry spray to desired vegetation.

NOTE: Only those plants or plant parts directly contacted by the herbicide spray will be damaged.

WEEDS:

This product will control most young, succulent and actively growing weeds. Several treatments may be necessary to control grasses and established weeds.

Maturing or woody weeds are less susceptible and may not be killed.

This product will not kill all perennial weeds but will result in top kill and suppression. Weeds and grasses emerging after application and regrowth from perennial weeds after top kill will not be controlled without reapplication. Under some conditions, tough weeds like Bermudagrass, Canada thistle, and bindweed will show signs of regrowth after several weeks. Should this occur, re-treat with this product. This product is non-selective and non-residual. Shield lawn grass and desired plants carefully to avoid damage. This product will not move through soil to injure nearby plants. Treated areas can be seeded two days after application.

REMARKS:

For best results, apply to weeds during the early periods of growth and during warm dry weather. Herbicidal action is rapid with effects visible within hours.

The speed at which this product works is affected by climatic conditions. For most rapid kill, apply in warm, dry weather.

This product may cause white residue on some types of brickwork or concrete. This residue will wear off after a few weeks. A dilute solution of vinegar can be used to remove residue.

This product contains Safer® Brands unique Weed-Marker™ colorant. Treated areas will be marked by a yellow colorant making treated areas clearly visible. Weed-Marker™ helps you know where you have sprayed. This avoids over application to the same weed, missed weeds, and allows immediate detection of overspray drift onto desirable plants: If drift occurs, immediately rinse off exposed plant surfaces with water. The Weed-Marker™ colorant breaks down quickly in sunlight and will be washed off by watering or rains. If this product's residues get on desirable surfaces such as concrete, stone, wood or paint, immediately rinse with water to prevent staining.

NOTE: Some visible staining may occur if product comes into contact with clothing or shoes. The stains are removed by normal laundering. Shoes should be checked for staining after application so that the colorant will not transfer onto carpets. If the colorant gets on your skin, this will help you realize that you should wash off any product residues. The colorant may temporarily remain on your skin, but it will be removed shortly by normal washings with soap and warm water.

STORAGE & DISPOSAL:

Storage: Store only in original container in a cool dry area inaccessible to children and pets. Protect from freezing and heat. Keep container tightly closed to prevent evaporation.

Disposal

If Empty: Do not reuse this container. Place in trash or offer for recycling, if available.

If Partly Filled: Call your local solid waste agency or (800)CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS:

Hazards to Humans and Domestic Animals:

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

FIRST AID:

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If on skin or clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-858-7378 for emergency medical treatment advice.

ENVIRONMENTAL HAZARDS

This product may be hazardous to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning or disposal of product.
